# Oxfordshire Solidarity Rally with Striking Workers

***The employers and the government are telling workers to 'cut back'. We say 'strike back'.***

- The people who were key workers last year are now being offered below-inflation pay offers – or no pay rises at all!
- The railway workers, postal workers, university staff, barristers and others are leading the way. It is time all workers got a decent pay rise.
- Industrial action is the workers' last line of defense.

**BACK THE STRIKES. JOIN A TRADE UNION. GET INVOLVED!**
